Detailed Action

This is the first Office Action corresponding to original filing. The application contains 21 claims.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement filed August 3, 2004, which has been reviewed by the Examiner.

Specification

The disclosure is objected to because of the following informalities: on page 5, paragraph 33, last line "2 8" should be - - 28 - -; and on page 8, paragraphs 47 and 48, second line "protrude s" should be - - protrudes - -.

Claim Objections

Claim 5 is objected to because of the following informalities: in line 2, "protrude s" should be - - protrudes - -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 2-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, line 3, no proper antecedent is found for “the stand bracket”.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Korean Patent No 20-0253576.

This patent discloses at Figs 4 and 5 a monitor (1), a base (9), a stand (8) between the monitor and the base, and a hinge means (7) connecting the stand to the base allowing for pivoting of the monitor relative to the base. Fig 7 discloses the hinge comprising a shaft (10b). Please note that a “rotation control unit” as recited in claim 1 can be almost anything. The Koren patent must have means to allow and limit the pivoting range of the hinge.

Allowable Subject Matter

Claims 3-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hong (6,231,021), Cho (6,330,993), Lu (6,378,830), Masuda et al. (6,561,469 and U6,575,419), Huang (6,595,481) and Jung et al. (US 20040211866A1) show monitor stands with pivoting hinges,
